

Nicholas von Buddenbrock's Maths and Science November Seminars COVID Waver

1. I understand that the following COVID prevention protocols will be practised to the best ability the seminar can provide:
 - a. The student will be made to sanitise every time they enter the premises. Sanitiser will be provided, but it is highly encouraged that students also bring their own.
 - b. Students will be seated far from each other to ensure sufficient social distancing.
 - c. The student's temperature will be taken every time they enter the premises.
2. I understand and acknowledge there will be other students in the class.
3. I understand and acknowledge that the student is required to always wear their mask in a sufficient manner while attending a seminar (having the mask covering the mouth and not the nose will not suffice).
4. I have not had any of the known COVID symptoms in the last 14 days.
5. To my knowledge, I have not been in close contact with anyone who has COVID in the last 14 days.

If a student does not adhere to the rules set out, they will be asked to leave as they might compromise the health of other students.
